

My services

COACHING-TO-GO

You need a soul to talk to and who listens to you without prejudice. I would like to share my time with you.

GARDENING

Life might give you reasons that you are not able to work on your garden anymore. You have the working tools and the ideas what to do and I can provide you with my workforce.

PHOTOS/VIDEOS

You need a photo or a video of a specific situation. I might be at the right place during my travels that you will need for your project.

WRITING

If you need a small text - positive thoughts, an article or even a poem - for your project within a reasonable time, I am happy to help you.

CREATIVITY

Let's create a better world. I would love to contribute to your project with my experience - 17 years as a project manager and an environmental engineer and 7 years in organic farming and permaculture.

MASSAGES

I can offer you a sensual massage if the chemistry between us feels right. You choose the location where you feel comfortable and give your imagination wings.
